Site is constructed of 3-column layout. On devices with smaller screen real estate, modules will wrap in the order shown.

Wrapping Order

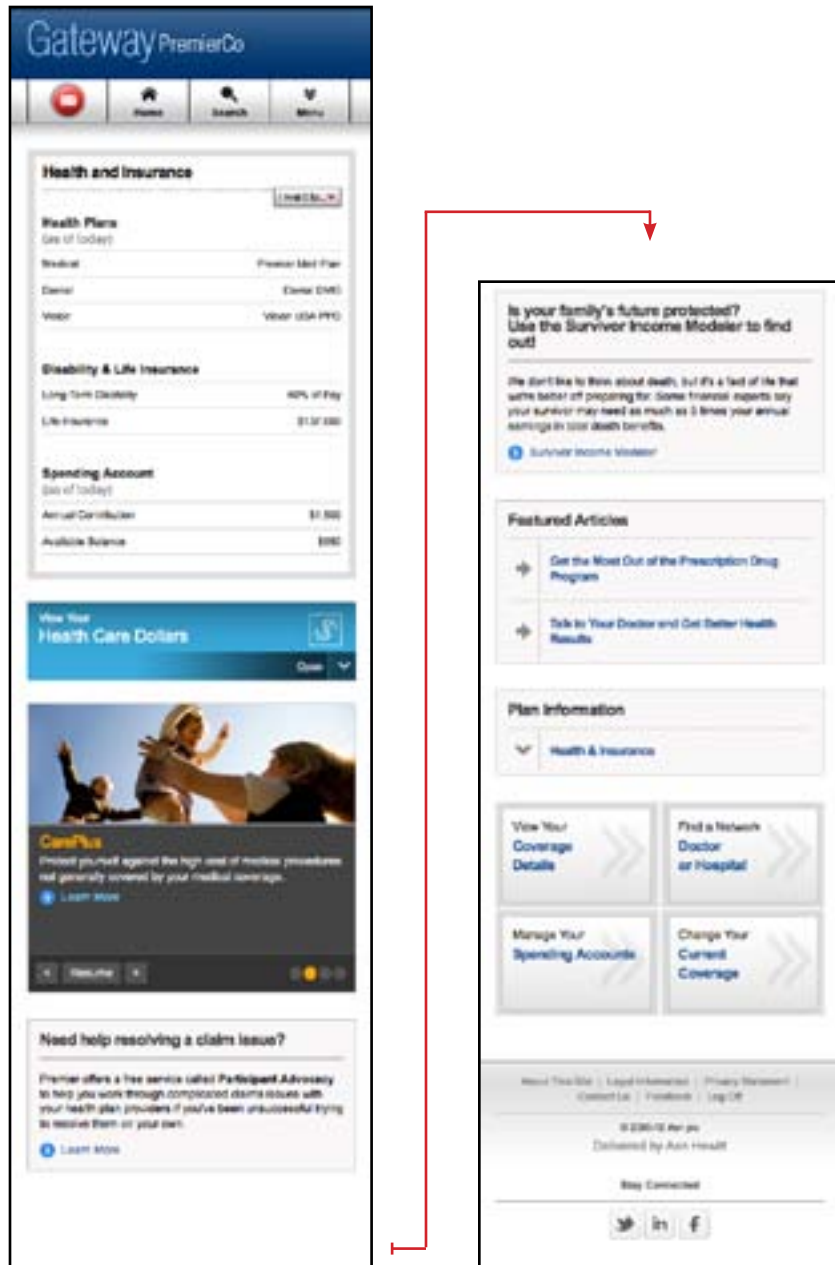

The screenshot displays the Gateway PremierCo website interface. The top navigation bar includes links for 'Your Profile', 'Contact Us', 'Feedback', and 'Log Off'. Below the navigation bar, a horizontal menu lists categories: 'Compensation', 'Retirement', 'Health & Insurance', 'Other Benefits', and 'Job & Career'. The main content area is divided into several modules, each numbered to indicate the wrapping order:

- Health and Insurance** (Module 1): A large module on the left side of the page, containing sections for 'Health Plans', 'Disability & Life Insurance', and 'Spending Account'.
- View Your Health Care Dollars** (Module 2): A small module located below the 'Health and Insurance' module.
- Save money!** (Module 3): A large module on the right side of the page, featuring a stethoscope and US dollar bills.
- Need help resolving a claim issue?** (Module 4): A module located below the 'Health and Insurance' module.
- Is your family's future protected?** (Module 5): A module located below the 'Need help resolving a claim issue?' module.
- Featured Articles** (Module 6): A module located to the right of the 'Need help resolving a claim issue?' module.
- Plan Information** (Module 7): A module located below the 'Featured Articles' module.
- View Your Coverage Details** (Module 8): A module located below the 'Plan Information' module.

When using 2-column Announcement module, the wrapping order is as shown.

Two column module can be placed either flush left or right. On either situation, modules below it follow the same order.

Wrapping Order Example (Mobile Portrait)

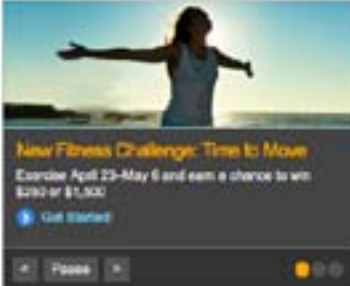

On smaller screens, a condensed version of the menu replaces the full navigation. This menu may inherit the look and feel of the full sized menu.
